I’m the cutest little house in Grafton, maybe in the whole wide world. I have a small porch, where the children can stand and look through the windows to see what is inside me.

Please come and visit me at the Mill Villages Park, 61 Main St, South Grafton, it will make me so happy.

Jane’s initial foray into writing was thirty years ago, when a magazine published her "true story" about a couple who falls in love across nearby office windows. She also writes memoir essays and poetry.

Jane currently has two other writing projects. One is a 10-part series of short stories set in an elderly community known as Vintage Hollow. The second is about an abandoned cat who finds a new home at the Grafton Historical Society.
